

Channel Living's *Vege Box* program is a non-profit social enterprise that works its heart out to create a more regenerative, ethical food system.

We provide boxes and bags of locally grown Farmer's Market quality, spray-free and delicious seasonal veges to our subscribers for \$50 per box (household of 3-5) and \$30 per bag (household of 2-3).

Boxes/bags can be collected from **our new home** - Brookfield in Margate or delivered to one of our central collection points in Woodbridge, Oyster Cover, Snug or Kingston (packed on Fridays, \$2.50 delivery fee).

The *Vege Box* program provides our growers with the financial confidence that comes with guaranteed sales ... resulting in fresh, great tasting, sustainably grown produce for you and your family.

We are supporting the re-emergence of small-scale vegetable growing in the Channel area and Tasmania to ensure resilience into the future, acting to make great things happen!

If you would like to subscribe or more information, please contact Beth Chamberlain at veges@channelliving.org.au.

Channel Living also has a co-op which stocks local/Australian ethical products, and runs community events and skills workshops that are centred on bringing people together and making sustainable living easy.

You can find us at Brookfield on Wednesdays (10-5.30pm), Fridays (3-6pm) and Saturdays (9.30-12.30).

Hope to be bringing sustainable living solutions to you soon!
