- We recommend wearing warm clothes suitable for this time of year, we do like to get outside as much as possible!
- **Please no crocs or thongs for safety reasons**
- Each day our program is subject to change depending on the weather and child interests.

About our busy days

About Bricks 4 Kids

Bricks 4 Kids is an educational play program that provides an amazing environment for children to build unique creations and to have loads of fun using Lego. Each program through Bricks 4 Kids has a number of goals to achieve, some of which are:

- Build problem-solving skills whilst providing an opportunity for creative expression and fostering an appreciation of how things work
- Explore STEM (Science, Technology, Engineering and Maths) concepts by utilising multiple learning modalities to engage visual, kinaesthetic and auditory learning styles. Different kids learn in different ways!
- Improve fine-motor skills as children manipulate small components and objects in a playful and imaginative setting

About the Outdoor Learning Area

The Outdoor Learning Area is opposite the river, still on school grounds. This space is an area where the children are able to:

- freely explore and engage with the natural environment,
- source their own learning,
- be challenged with their thinking
- develop critical-thinking skills

We hope to spend a lot of our time in this space when we visit. Signs will be displayed for when we are out exploring!

About the Felt Workshop

Hi, my name is Lidiya Stamatova, and I'm a felt artist. I started doing felting two years ago, and since then I improved my felting skills significantly. I learned lots of different felting techniques, made few workshops, had two exhibitions (currently working on my third one in August) and few big markets.

Wool is natural, easy to work with material. The possibilities of what you can do with it are incredible. Some of my favourite things to create are items for kids (toys, dress-ups, wall decors and more) and with kids. I started doing felting first with my kids, then with friends' kids, and then workshops for kids. From my observations felting is a new and very interesting and fun form of art for the children. They make their creations only using natural fibres of wool and soapy water — it is like magic!

You can find more about my workshops or my upcoming workshops on my Facebook page – ArtFelt Lidiya Stamatova.

Booking Form

Please complete and return this page to school only.

Keep the first page to know what's on!
