

Why our Schools are safe places.

Public Health advice is that it is safe to send your children back to school because:

Tasmania currently has a low rate of community spread.

Borders are still closed.

More people are being tested.

We use physical distancing and are hygienic.

To keep schools safe we are:

Increasing cleaning.

Making sure there is soap, sanitiser and tissues available.

Not having large gatherings e.g. assemblies.

Limiting parents/adults on school sites.

Don't send them if:

They are sick.

They have a health problem and you want to talk to your doctor first.
