

Term 2 in 6A Milne/Fraser...

We have hit the ground running this term in 6A. Due to past Covid restrictions, our year 6s have just been able to start running the Daily P.E. sessions with the rest of the school. They have taken on the leadership opportunity with confidence, team work and a growth mindset. Year 6s are now wearing their new leader's hoodies with pride.

So far this term, we have also been very busy learning about:

- Persuasive devices and techniques in English
- When we add the suffix 'sion' or 'ion' onto words in word inquiry
- Written and mental strategies for multiplication using decimal and whole numbers in Maths
- Exploring the history, roles and responsibilities of the government along with how laws came about in HASS
- Natural disasters in Science
- What makes a good leader in Social Skills

A side interest for some of our students has been fixing old bikes that they have found around the school. If this is something that you think you could come and assist our students in, or if you have any old, unwanted bikes, could you please get in touch with us, as we are keen to learn and to fix.
